

Best gift idea for men

If you are looking for a gift idea for a guy I have a very good idea for you. You can order online wishes written on the tits or model's ass. She will write your text on her body and take a photo or video. You can later send such a gift to a friend via mms.

Pricing:

- photo – \$19.95
- video - \$39.95

Just register on the [tittygram](#) page, choose the girl you like and enter the text that the model has to write on her body. Then we pay and wait about 24 hours for our order. I am sure that such a gift will surprise every man. Additionally, if you want to impress your colleagues you can lie that this girl is your lover and it is you who wrote the text on her ass or tits. Respect is guaranteed!
